

Batch Payments

Send batch payments with ease and efficiency

Does your business manage a large number of international payments?

Our batch payment processing system automates the entire process of sending batch payments allowing you to handle multiple payments with ease.

Fast, flexible and efficient

Use your existing ERP or accounting systems to upload files. Our intuitive and easy to use online solution allows you to purchase currency, transfer funds to beneficiaries, and reconcile files online. Manage payments all in one place with approval workflows, comprehensive reporting, and robust integration.

Payment control & validation

Our batch payment solutions eliminate errors made during manual data entry, offer data validation tools to confirm your payments meet banking guidelines, and are designed to provide real-time payment tracking. Let our systems do the work for you while helping you improve your payment processing capabilities.

BATCH PAYMENTS

1

Upload

Upload files from your accounting or ERP system and let us convert them into payment instructions for you.

2

Quote

Get live currency exchange quotes and send funds from your bank account in seconds.

3
